Kend Dine Kognitive Biases!

1. FORANDRING ER DÅRLIGT FOR 'FORRETNINGEN'

[The status quo bias]

[The confirmation bias]

3. DENNE IDE ER SÅ GOD, AT DEN UMULIGT KAN FEJLE

[The optimism bias]

4. PROBLEMET MED EKSPERTER ER, AT DE IKKE VED HVAD DE IKKE VED

[The expert problem]

RJ REYNOLDS TOBACCO COMPANY – ANNONCE I ET MEDICINSK TIDSSKRIFT OMKRING 1950

He's one of the busi-
est men in town. While his
door may say *Office Hours*
2 to 4, he's actually on call
24 hours a day.

The doctor is a scientist,
a diplomat, and a friendly
sympathetic human being
all in one, no matter how
long and hard his schedule.

According to a recent Nationwide survey:

MORE DOCTORS SMOKE CAMELS THAN ANY OTHER CIGARETTE

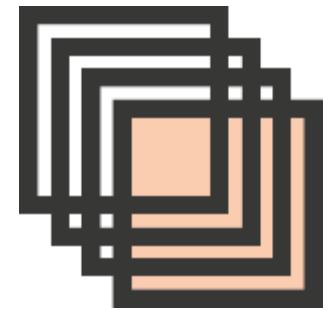

DOCTORS in every branch of medicine—113,597 in all—were queried in this nationwide study of cigarette preference. Three leading research organizations made the survey. The gist of the query was—What cigarette do you smoke, Doctor?

The brand named most was Camel.

The rich, full flavor and cool mildness of Camel's superb blend of costlier tobaccos seem to have the same appeal to the smoking tastes of doctors as to millions of other smokers. If you are a Camel smoker, this preference among doctors will hardly surprise you. If you're not—well, try Camels now.

T for Taste . . .
T for Throat . . .
that's your
proving ground
for any cigarette.
See if Camels
don't suit your
"T-Zone" to a "T."
